LOGO USAGE

PRIMARY LOGO

The white logo version is used exclusively on dark backgrounds. Always maintain proper spacing and never distort the proportions.

LOGO SIZING

CONTEXT	SIZE	POSITION
Hero/Feature Post	280px - 380px	Center, prominent
Standard Feed Post	130px - 150px	Top right corner
Story Post	380px	Center, with drop shadow
Campaign Badge Post	130px	Top right corner

CLEAR SPACE

Maintain a minimum clear space around the logo equal to the height of the "K" in "Karavane". No other elements should intrude into this space.

> **Important:** Never place the logo on light backgrounds without using a dark container or the colored logo variant.

LOGO FILE REFERENCE

```
/* Logo file for social media posts */
src: "logo-white.png";

/* Recommended CSS for logo */
.logo {
  width: 150px;
  height: 150px;
  object-fit: contain;
}
```

POST FORMATS

FEED POSTS (SQUARE)

1080 x 1080
PIXELS

Instagram & Facebook Feed

- Aspect ratio: 1:1 (square)
- Standard canvas for all service posts, promotions, and informational content
- 60px padding on left/right edges
- 50px margin from bottom for contact section
- Top accent bar: 12px height
- Bottom accent bar: 8px height

STORY POSTS (VERTICAL)

1080 x 1920
PIXELS

Instagram & Facebook Stories

- Aspect ratio: 9:16 (vertical)
- Used for brand awareness and adventure-themed content
- More creative freedom with sunset gradients and decorative elements
- Larger logo (380px) positioned centrally
- Contact section at bottom with 80px margin

LAYOUT GRID

All feed posts follow a consistent vertical structure:

SECTION	POSITION (FROM TOP)	HEIGHT/CONTENT
Top Accent Bar	0px	12px
Logo/Badge Area	35px - 60px	Variable
Main Content	140px - 280px	Variable
Contact Section	Bottom - 50px	~100px

Bottom Accent Bar	Bottom	8px

Tip: Use absolute positioning for all major sections to ensure pixel-perfect placement across all posts.

VISUAL ELEMENTS

ACCENT BARS

Gradient accent bars frame every post, providing visual consistency and brand recognition.

Top Bar: 12px height, Orange to Orange Bright gradient (left to right)

Bottom Bar: 8px height, Orange Bright to Orange gradient (left to right)

Variant: Green to Orange (for checklist/success themed posts)

Variant: Gold to Orange (for premium/value themed posts)

BORDER RADIUS SCALE

6px 8px 12px 16px 20px 50px (pills)

BACKGROUND PATTERNS

Subtle background patterns add texture without overwhelming content. Always use low opacity (3-8%).

PATTERN	OPACITY	USAGE
Diagonal Stripes	3%	Campaign/pricing posts
Topographic Circles	8%	Service/repair posts
Road Lines	5%	Checklist/travel posts

GLASSMORPHISM EFFECT

Used for contact bars and floating cards to create depth and modern aesthetic.

```
.contact-bar {
  background: rgba(255, 255, 255, 0.1);
  backdrop-filter: blur(10px);
  border-radius: 16px;
  border: 1px solid rgba(255, 255, 255, 0.1);
}
```

COMPONENTS

BADGES

Used for campaign labels, feature highlights, and status indicators.

JAN/FEB SPECIAL

EXPORT SETTINGS

Posts are exported to PNG using Puppeteer with these settings:

```
// Puppeteer export configuration
deviceScaleFactor: 1,
type: 'png',
clip: {
  x: 0,
  y: 0,
  width: 1080, // or 1920 for stories
  height: 1080 // or 1920 for stories
}
```

File Naming: Use the pattern `##-descriptive-name.html` for HTML source files and matching `.png` for exports. Examples: `01-caravan-service-repairs.html`, `15-service-packages-promo.html`
